About the child/children: B10 is a well-behaved child with a bright and happy disposition, who thrives on routine and enjoys a variety of activities, both indoors and outdoors. While he is not yet toilet trained and requires assistance with dressing, B10 is very active and enjoys walking by the river, playing ball, and swimming.

B10 has a prosthetic leg, which he uses from morning until bedtime, and while he is able to walk independently, he sometimes prefers to go out in his wheelchair. He communicates effectively using a chat board, and it's important to note that he takes medication for constipation, including Sena in the evenings and Movicol.

He finds comfort in sensory experiences and loves playing with stretchy, textured objects, which he uses to self-soothe. He also enjoys time on the trampoline and appreciates moments of quiet, making it very clear when he wants to be left alone.
